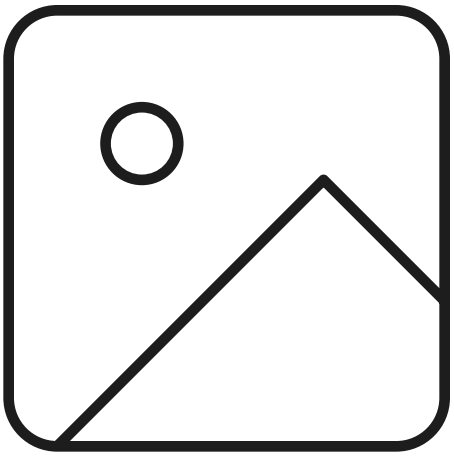
Health Companion



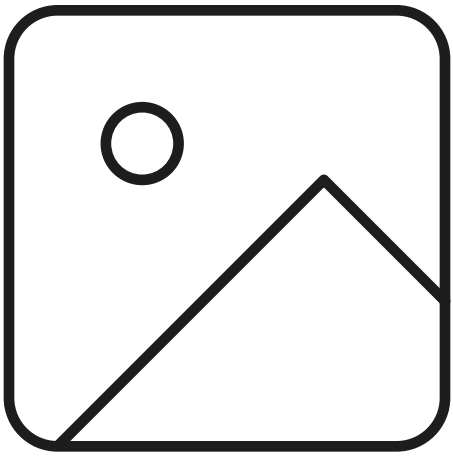
Welcome to your Health Companion App.

Let’s begin the setup..

User’s name

Name

Next

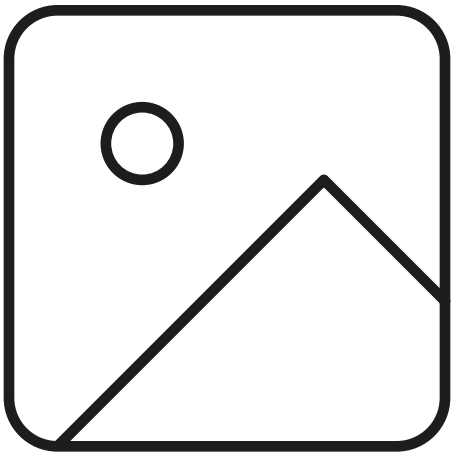


Setup the app in ...

Self Care mode | Caregiver mode

Self Care mode offers
a more detailed interface to the user.
You can update any information at any time and have full control of the information in the app

Next

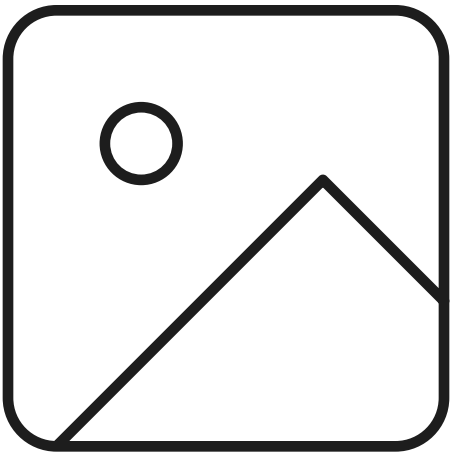


Setup the app in ...

Self Care mode | Caregiver mode

Caregiver mode allows the user to focus on pill reminders. The caregiver can access the information tab through a more discrete button

Next



A little more about yourself..

Enable mood tracker

You will be invited to log in your mood in the homescreen

Do you have any disabilities?

Low vision mode
